

Pumpmakers

Provide Water & Work

PM Hand Pump

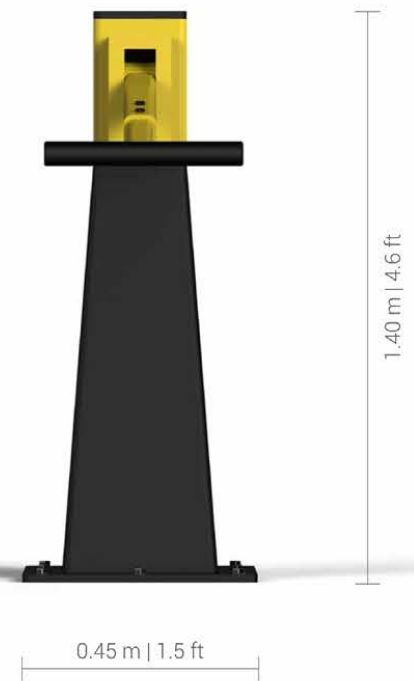

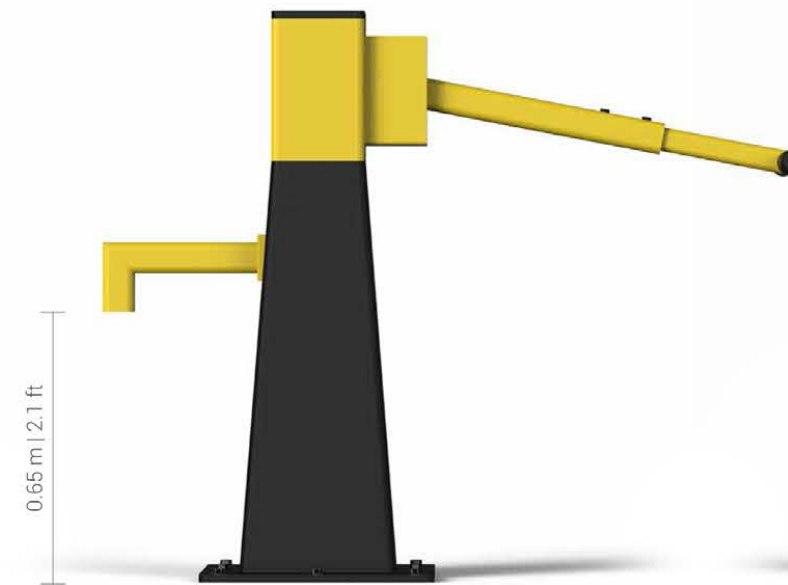

Datasheet

Imagine how much easier it would be if hand pumps would be maintenance-free. The PM Hand Pump is salt water resistant to avoid corrosion, it can be installed at any new water well or effectively replace existing hand pumps.

The PM Hand Pump makes this – and more – possible!

- Quick & easy water supply for up to 250 people**
- Pumps water from wells up to a depth of 70m**
- Maintenance-free pump piston system (works without gaskets)**
- Salt water resistant to avoid corrosion**
- Own or sponsor branding is possible**

Delivery height	m	10	20	30	40	50
	feet	33	66	100	130	165
Delivery rate	liters/min	20	18	16	14	12
	gal/min	8.0	5.3	4.8	4.2	3.7

About Pumpmakers

PM Pumpmakers GmbH is an Austrian solar company, specializing in the research and development of power and water solutions, using renewable energy sources.

To meet the needs of a fast-growing market, Pumpmakers focuses on innovative solar pump systems for the supply of rural and urban drinking water, water well construction, water well drilling, and agricultural purposes.

A team of engineers and constructors tackles the challenges posed by the global water crisis head-on to design and develop truly self-sustainable water pump systems with a clear goal: millions of people all over the world should have access to safe, clean drinking water.

Pumpmakers Water Pumps can easily be set up to replace pre-installed water pumps, such as hand water pumps, generator-powered water pumps or windmill water pumps.
